23 Cosham Street, Brighton 3186, Victoria, Australia
0420244738
DOB 14th August 1980
Medicare Number: 3342391876 (1) Exp: 07/2026

To: Dr Chris Neil
Heartwise, 58A Whitehorse Rd Deepdene
VICTORIA 3103 AUSTRALIA

Thank you for seeing Nick who suffered A Fib after his Pfizer vaccine. Attached with this referral are his lab dates.

These are what he self-prescribed to help with s protein issues:

The advice he is following:

https://www.linkedin.com/posts/twc-wellness-company_spike-protein-detox-dr-peter-mccullough-activity-7092562751264333824-XYrL?utm_source=share&utm_medium=member_desktop

The 3 supplements he is taking:

<https://au.therastore.co/buy-supplement/doctors-best/nattokinase/> 2 capsules daily
<https://au.therastore.co/buy-supplement/doctors-best/quercetin-bromelain/> 1 capsule daily
<https://au.therastore.co/buy-supplement/gaia-herbs/turmeric-supreme-extra-strength/> 2 capsules daily

I have added:

- RN Labs Acetyl Carnitine Powder 2 g daily
- RN Labs BioActive B-Complex 1 capsule daily
- RN Labs Lipotropex 3 g daily
- He was taking high dose vit D, I have asked him to drop to 2000/3000IU and GET SUNLIGHT
- BiOptimisers Magnesium Breakthrough from OptimOZ.com.au
- Food-derived spermidine is from <https://oxfordhealthspan.com/pages/our-story>
- Zeolite <https://zeonatural.com/products/zeolite-powder-with-fulvic-humic-complex>
- Lumbrokinase <https://canadarna.com/pages/boluoke-intro?view=product-info>. I have advised that he can take Lumbrokinase and Nattokinase at the same time.

His cardiologist put him on Beta blockers, PCSK9 inhibitor (injection once per month), Perindopril and blood thinners, although I spoke to Nick a couple of days ago and he said that the cardiologist was pulling him off all the meds.

I am hoping for you to continue monitoring Nick as you are vaccine-informed.

Regards,
