Ongoing sessions are generally 90 minutes in duration and cost \$140. Again, we request a 50% deposit at the time of booking with the balance payable at the completion of your session unless prior arrangements have been made.

Missed / Late Cancelled Appointments

Life can be unpredictable, and we understand that plans can change. We want your experience with us to be as stress-free as possible, including when unexpected changes come your way. Here's our gentle cancellation policy.

You can cancel your appointment up to 48 hours before the scheduled time/date with no cancellation fees. If the appointment is not rescheduled, your deposit will be promptly refunded, typically within 2 business days.

Providing at least 48 hours notice to cancel an appointment helps us to keep your session costs down, maximises our availability to clients and minimises lost clinical time. If you need to cancel with 48 hours of your scheduled appointment time, don't worry. While we may apply a cancellation fee, we'll work with you to find a fair solution. Life sometimes throws us curve balls. If you're facing unexpected circumstances beyond your control, please let us know and we will do our best to accommodate your needs.

If you are late for an appointment your session may be less than time allocated. Again, we will try to accommodate this as much as we can. The standard fee applies in these circumstances.

If you provide us with a mobile number or email address a reminder message will be sent the day before your appointment. This is a courtesy reminder only. If for any reason you did not receive a reminder message and missed your appointment you will still need to pay the late missed appointment fee. If ever in doubt please feel free to telephone to confirm an appointment.

We're here to provide a seamless and enjoyable experience. If you have any concerns or questions about our cancellation policy, reach out to us. We're always ready to assist you.

Frequency of Appointments

The number and frequency of appointments will be discussed with you by your practitioner. This will be based on their professional opinion once they have had an opportunity to understand your treatment needs and goals. In many circumstances it can be difficult to predict a person's response to treatment and therefore the number of sessions they may require. However, we do recommend 3 balances initially in order for you to see some reasonable and sustainable changes. For complex issues, it can be beneficial to develop a structured protocol over numerous sessions.

Your practitioner will discuss this with you prior to commencing treatment. Ultimately, this is your health journey and we support your decision in relation to frequency and pace of your sessions.
