

# COMPATIBILITY RETEST VOUCHER

## RECOMMENDED BETWEEN SIX AND NINE MONTHS

To gain the most benefit from your Compatibility Program, it is important to retest between six and nine months from the time you started. This helps your Consultant to determine how your body is responding to your program, and to determine if any further modifications or other therapies are necessary at this stage.

We have found that, on average, 75% of foods and household products will correct within 6 months, however, some items take longer. If items are re-introduced too early, or too many at a time, there is a high risk that symptoms will return. In addition to telling you which foods/ products can be re-introduced, your retest report provides important information about how and when to re-introduce these foods/ products.

Get the most from your efforts in the program - Contact your Consultant to order your retest before the date indicated below. If Retests are done after 9 months, the body may have changed and it will be necessary to start the program again.
