Re: Referral of Cassidy Buckley (20/11/1993)

Cassidy has presented for a naturopathic consultation on 30.04.2024 regarding optimising her overall health and wellbeing.

She has a history of pre-menstrual dysphoric disorder, HPV, iron deficiency.

She is seeking to reduce alcohol intake and quit vaping. Her current medication is Levlen (OCP).

In order to establish a comprehensive baseline and identify any potential areas requiring attention, I respectfully ask if you would consider ordering the following tests for Ms Buckley. I understand there are Medicare regulations and guidelines you must follow.

- Iron Studies
- FBC
- Thyroid Panel (TSH, T3, T4, Rt3, Antibodies)
- Vitamin D
- B12, folate
- LFT
- Lipid profile
- UEC kidney function
- HBA1C
- Glucose
- CRP
- ESR
- Cortisol

If there are any additional tests you consider appropriate for Ms Buckley, please include those as well.

In the mutual care of our client, I would appreciate the sharing of any relevant information that will assist with the health management of Cassidy Buckley. Thank you in advance for your consideration.

Ashleigh van Nierop
BHSc (Nat), B Comp Med.

I, **Cassidy Buckley** have read the details outlined above and consent to share the information contained herein with the practitioner disclosed on this letter. I agree to pass this information on, and for the outcomes to be returned to the consulting practitioner.
