National Cancer Screening Register (NCSR)
The National Cancer Screening Register (NCSR) is an 'opt out' register. Pathology laboratories can no longer act on 'not for register' instructions on the pathology request form. Patients who wish to alter their consent status must contact the register directly on 1800 627 701.

Your doctor has recommended that you use Douglass Hanly Moir Pathology. You are free to choose your own pathology provider. However, if your doctor has specified a particular pathologist on clinical grounds, a Medicare rebate will only be payable if that pathologist performs the service. You should discuss this with your doctor.
