### **PRESCRIPTION**

**Thuja Super - Taken Each Morning for 8 weeks**

**Med Super - Taken Each Evening for 8 weeks**

You may notice healing symptoms throughout the taking of these remedies in the way of increased/vivid dreams, emotions surfacing, skin conditions coming to the surface then decreasing, mild cold and flu like symptoms, general fatigue, a sense of well-being, increased energy, each case is individual in treatment and healing so I recommend to take notes each evening and touch base one week after beginning remedies.

You should be gentle with yourself/child, rest when possible, stay well hydrated and support yourself/child with quality lifestyle choices around food, sun exposure, sleep and reducing toxic loads. Please reach out if you have any concerns or questions along the way.
