Dear Lesley

Re: Ms Megan Elizabeth Tudor (DOB: 15/04/1953)
20 Johns Road
Maldon VIC 3463

0407 301 273

Thank you for seeing Ms Megan Elizabeth Tudor, for referral under GPMP and TCA. Megan has asthma and increased work of breathing and would benefit from your assessment and management for the chest and upper back discomfort.

Medication:

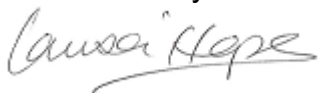

Advantan 0.1% Cream	apply Before bed.
Fexofenadine 180mg Tablet	1/2 Daily.
Nasonex 50mcg/dose Nasal Spray	2 Spraises Daily.
Seretide MDI 250 /25 250mcg;25mcg/dose Inhaler	1 Inhalation Before bed.
Ventolin CFC-Free with counter 100mcg/dose Inhaler	2 puffs p.r.n.

Allergies:
STELAZINE lockjaw after eating cheese
NYSTATIN swelled up

Past History:

1955	Asthma	since childhood-lot of steroids, flared after menopause
2013	Sinusitis	severe sinusitis-ENT discovered malformation in left sinuis
2013	postnasal drip	aggravates the asthma
18/04/2023	Subclinical hypothyroidism	thinks from iodine in Bonsoy milk- TSH=6.7, T4 14.5 on thyro balance from Metagenics not Hashimotos apparently per specialist
05/06/2023	Osteopaenia	
20/02/2024	Granuloma annulare	
27/03/2025	Advanced care directive	Wants CPR and initial resuscitation but not life support if outcome is expected to be poor

Yours sincerely

Dr Louisa Hope
