

Consent for Treatment of Minors and the Vulnerable

This form outlines the consent process for providing remedial massage therapy to vulnerable individuals within our practice. As a qualified Remedial Massage Therapist, we understand the importance of ethical and responsible care, particularly when working with individuals who may not be able to provide consent through traditional means.

Scope of Treatment

The remedial massage therapy sessions provided will focus on addressing specific physical issues, such as pain management, mobility restrictions and overall well-being. These treatments will be conducted in a safe and supportive environment, prioritising the well-being of the client.

Consent Process

In situations where caregivers or parents are not present, I will implement the following steps to ensure informed consent:

- 1. Assessment of Capacity:** I will assess the individual's capacity to understand the nature and purpose of the treatment, as well as any potential risks and benefits.
- 2. Information Sharing:** I will provide a clear explanation of the treatment process, allowing time for any questions to be answered.
- 3. Documentation:** A consent form will be filled out by the individual, indicating their agreement to proceed with treatment.
- 4. Emergency Protocols:** Should any concerns arise during treatment, I will have protocols in place to contact caregivers or relevant authorities immediately.
- 5. Confidentiality and Professional Standards**

All treatments will be conducted in adherence to professional standards, including confidentiality and ethical guidelines. Client information will be handled sensitively and shared only with appropriate parties when necessary.

We are committed to providing quality care to all clients, ensuring their dignity and autonomy are respected.
