Pregnancy, Birth and Postnatal Recovery

Trauma is stored at a cellular level in the body. Some massage techniques affect your body's response, especially if you've experienced emotional events or trauma. Massage creates a safe, supportive treatment space for all women to be nurtured.

Tick what applies to your birth experiences -

- ☐ No birth history to report ☐ Vaginal Birth ☐ Water Birth
☐ Epidural / Pethidine ☐ Forceps / Ventouse ☒ C-section
☐ Termination ☐ Miscarriage ☐ Ectopic

How many pregnancies have you had?

2

How many babies have you birthed?

2

Have you had any birth interventions or complications?

High blood pressure 1st pregnancy requiring hospital rest in the last month.

How long were your birth hours for each delivery?

N/A

Any other info you would like to share?

No.

Your consent...

Your confidential information helps our Massage Therapist plan the safest treatment. Be honest - tell us if the temperature is too hot/cold, pressure level needs adjusting or you're uncomfortable/unwell or unsure at any stage.

Every massage has potential risks, complications or side-effects. Such as causing muscular discomfort, fatigue, bruising, burns (from heat therapy), aggravating existing conditions, increasing blood pressure or skin sensitivity.

After massage, it's common to feel relaxed or sleepy. Get up slowly from the table - give yourself time to adjust afterwards. Delay your shower for 2 hours for essential oils to keep working. Keep well hydrated with water in the 24-48 hours after massage.

It's ok to discuss my treatment with my doctor, physio or referring health practitioner.

- ☒ Yes - clients will be informed if this happens. ☐ No thanks.

My Massage Therapist and I both have the right to stop or refuse treatment at any time.

- ☒ Yes - I know I can ask questions at any time too.

**I will keep my Massage Therapist updated
on any changes to this information and
my health.**
