Priority:

Cleaned shower on Thursday; right pec - torn? eased slightly, painful to touch. Applying heat and cold, using Traumeel and Fisiocrema.

Thursday night - difficult to get to sleep; putting pressure on to find comfortable position. Easier last night; reaching across chest painful, also reaching above head.

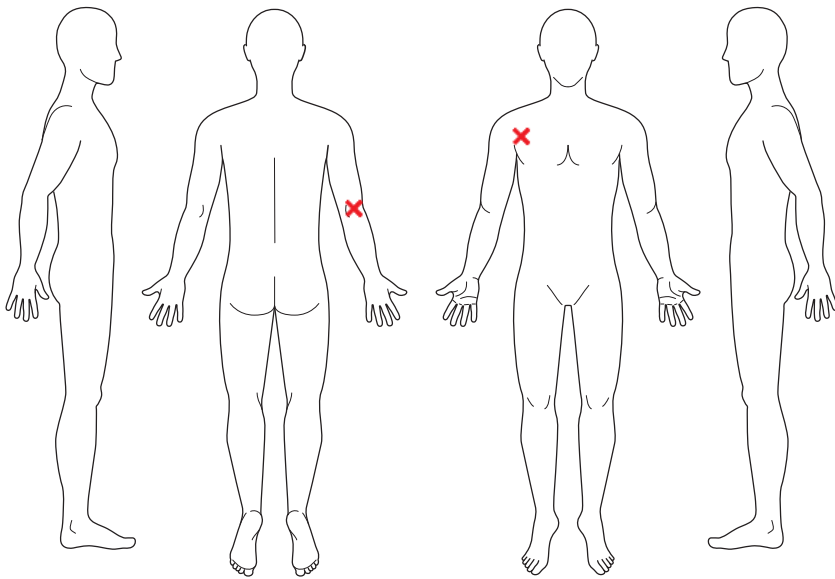

Bronchial - 1 course antibiotics for 1 wk; WFH yesterday; starting to feel normal/less foggy.

Rheumatoid factor has never increased; inflammatory markers steadily increasing.

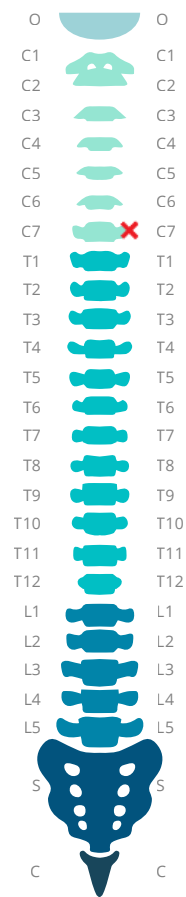

Cold/flu like symptoms with new medication.

Rpt bloods in 3 wks.

Rpt Bioactivated Mg.
